Bosnian

DRIVING LICENCE  
B category, 2010.

## SKILLS

## LANGUAGES

\*NOTE: Currently enrolled in B1 language course.

## HOBBIES

Visual Programming, Fashion, Web  
Development, Music

## PROFILE

I am a civil engineer who currently working with various types of structural projects which are BIM oriented, including Revit families, 3D models in Revit Structure environment. Many projects already done in Revit Architecture and Structure as well, with over a year of experience in BIM. I am very common with Revit Family editor, as well as Revit project environment.

I like functional models that express smooth and simple design. As result oriented problem solver, I prefer quality project management, which helps me to manage my tasks effectively.

## EMPLOYMENT HISTORY

Structural Engineer - BIM Consultant at Walter d.o.o, Sarajevo  
JUNE 2018 – JUNE 2020

I have worked in 4 different departments in almost 2 years:

- Digital Objectification Department

*Development of 3D models from PDF and DWG reference drawings*
